

The 1904 Transcontinental Run Album

Messrs. Whitman and Carris drove a 1904 Type-A cross engine Franklin from San Francisco to New York between August 1st and September 3rd, 1904. This was a record-breaking achievement and The H.H. Franklin Club is fortunate to have an album of 97 original pictures from this 4500-mile trip. These photographs were professionally scanned and adjusted at high resolution with each picture file being about 25 Mbytes.

The Files have been converted to lower resolution and collected into this PDF file of reasonable size and presented without selection or editing to represent as complete a historical record as possible. The pictures are in the order that they appear in the album which is not chronological. The high-resolution scans are available to club member upon application the librarian (library@franklincar.org).

The Franklin company used Mr. Whitman's account of the trip as an advertisement brochure for the 1905 model cars. This is also available on the Club's website (call no. A-05-01)
